KAUKAUNA LOCKS AND DAM, SANITARY BUILDING AT LOCK 3

HAER NO. WI-87-J

HAER
WIS
44-KAUK,
3 J.

Location: The Sanitary Building at Kaukauna Lock 3 is located north of the dry dock and east of the Fox River Project Office in French lot P C35, T21N, R18E, Civil Town of Vandebroek, Outagamie County, Wisconsin.

UTM: 16/399820/4903920; USGS Quadrangle: Kaukauna, Wisconsin 7.5' series

Date of Construction: 1877-1941

Engineer: United States Army Corps of Engineers with Contractors

Architect: United States Army Corps of Engineers with Contractors

Present Owner: United States Army Corps of Engineers

Present Use: Toilet and washing facilities for lock personnel.

Significance: The sanitary building functions as part of the daily operation of the Kaukauna Locks and Dam Complex.

Project Information: This documentation was undertaken in 1995 in accordance with requirements detailed in a June 19, 1994 letter from Gregory D. Kendrick, Chief, History Branch, NPS to Dale Monteith, Acting Chief, Planning Division, USACOE, Detroit District. The Lower Fox system remains basically operational but was placed in caretaker status by the USACOE in 1982. The USACOE plans to divest itself of the Lower Fox system as soon as is feasible; therefore, NPS requested this documentation. All documentation conforms to HAER standards.

Dr. John D. Richards, Principal Investigator; Georgia A. Lusk, Patricia B. Richards, and Robert J. Watson, Project Archivists with Great Lakes Archaeological Research Center, Inc.; Joseph Paskus, Project Photographer.

SANITARY BUILDING

At Kaukauna Lock 3 a sanitary building is situated north of the dry dock between a large storage shed and Augustine Street. The building is a rectangular cinder block structure constructed on a concrete foundation. It is painted blue and trimmed with white eaves. It has an overhanging roof pitched slightly to the rear with a protruding metal pipe capped by a revolving, louvered vent. The door is oriented to the right of center. Eye-level windows are in each wall.
